Hello,

We are scheduled to have a call on Friday 10/4. In the interim, please review the following attached documents:

1. Redline drafts of the Matador and Mewbourne FOV/NOVs. These reflect revisions that AED made a based on internal review and also changes based on comments from NMED.
2. Draft NMED markups of the FOV/NOVs for Matador and Mewbourne from 9/20/19 and EPA's responses. Please note that we incorporated NMED editorial changes into the redline drafts (#1 above). Where the NMED comments are more substantive we either made edits in the redline draft (#1 above) that are responsive to the comments or flagged the issue in the NMED comment draft as one to discuss during the call on Friday.
3. Draft Matador and Mewbourne CAA 114 information requests.

Conference Call Agenda:

Ex. 5 DP AWP AC Privilege / Ex. 7(E)

Both the Matador and Mewbourne FOV/NOVs are subject to AED management review and the drafts may be modified as a result of ongoing concurrent management review. We will of course keep the case teams apprised of all significant changes that come from AED managers.

I am looking forward to the conference call on Friday.

Bob
